AccessPlus is an Australian company, providing managed internet services to the accommodation industry.

Extra bits and pieces

To use the AccessPlus internet service, you need to:

1. Create a connection

Connect a network cable from your computer to the internet point on the wall.
If you are in a property with a wireless solution, select the 'AccessPlus' network.

2. Create an account

Open your web browser (eg. Firefox, IE or other) and try to access any webpage - you will be redirected to the AccessPlus login page.
Click **Create New Account** or enter your username and password to login.

3. Add time/ data to your account

To use the Internet, you need to have time AND data in your account.
